

Size

Feature	What it Measures?	Example
Major Axis	Longest line inside the seed	Tall & thin seed
Minor Axis	Shortest line inside the seed	Round & wide seed
Bounding Box Width	Width of the rectangle around the seed	Seed's horizontal size
Bounding Box Height	Height of the rectangle around the seed	Seed's vertical size

Shape

Feature	What it Measures?	Example
Eccentricity	How stretched the seed is	Round seed = 0, Long seed = High
Aspect Ratio	Ratio of length to width	Round = 1, Long = High
Compactness	How irregular the shape is	Smooth = Low, Jagged = High
Roundness	How close to a circle	Perfect circle = 1, Oval = < 1
